

TALENT STOCK AED SERVICE CONTRACTS

New Jersey Schools and School Districts are required by State Law to have AEDs on site along with trained/certified teachers, staff, coaches and administrators in CPR/AED, First Aid, and Narcan Administration. Keeping up with AED maintenance and the training/certification process of school personnel can be overwhelming. With the time constraints placed on educators let Talent Stock take the worry out of managing your AEDs and the training/certification of your teachers, staff, coaches, and administrators. Talent Stock is now offering service contract options that are tailored to your specific needs as Schools and School Districts.

Please see the below service options chart for full details. Call (908) 760-6514 or email talentstock@hotmail.com at any time to sign up or with questions. Each service contract is good for one year and gets renewed annually this way you are not locked in. We are looking forward to hearing from you!
